Anne C. Molgaard, Chief Operations Officer

David Jensen, Interim Public Health Director

Division of Environmental Health

November 2, 2016

Dear Regulated Community,

Environmental Health will be launching a new improvement project on January 1<sup>st</sup> 2017.

The project will focus on long standing major violations at the facilities we permit and inspect. Our goal will be to decrease the length of time major violations are uncorrected.

By dis-incentivizing major violations Environmental Health hopes to advance public health in our local communities. This project will only affect facilities that have reoccurring or major violations which have not been addressed in a timely manner.

Please feel free to contact our office at 707-234-6625 with any questions or concerns.
